

50 Top Companies for Electrical and Electronics Engineers

Top 50 Product-Based Companies

Sl No	Company Name	Description
1	Texas Instruments	Semiconductors, microcontrollers, and signal processing ICs.
2	Intel	Microprocessors, chipsets, and AI hardware.
3	Qualcomm	Wireless technology and mobile processors.
4	NVIDIA	GPUs, AI computing, and data centers.
5	AMD	Microprocessors and graphics cards.
6	ABB	Industrial automation and robotics.
7	Siemens	Industrial automation and smart infrastructure.
8	Schneider Electric	Energy management and smart grids.
9	Honeywell	Aerospace systems and industrial automation.
10	Bosch	Automotive electronics and smart home technology.
11	General Electric (GE)	Power generation and renewable energy.
12	Samsung Electronics	Semiconductors and consumer electronics.
13	Sony	Imaging sensors and audio systems.
14	Hitachi	Industrial systems and IoT technology.
15	Mitsubishi Electric	Factory automation and electrical components.
16	Panasonic	Batteries and industrial equipment.
17	Cisco Systems	Networking hardware and IoT solutions.
18	Broadcom	Semiconductors and wireless communication.
19	STMicroelectronics	Microelectronics and automotive ICs.
20	Microchip Technology	Microcontrollers and embedded solutions.
21	Analog Devices (ADI)	Signal processing ICs and sensors.
22	Infineon Technologies	Power electronics and automotive semiconductors.
23	Renesas Electronics	Embedded processors and IoT solutions.
24	Rockwell Automation	Industrial automation and control systems.
25	Emerson Electric	Automation solutions and industrial software.
26	Eaton Corporation	Power management and electrical components.
27	Legrand	Smart home solutions and power distribution.
28	NXP Semiconductors	Automotive electronics and secure embedded systems.
29	Maxim Integrated (ADI)	Analog ICs and power management.
30	Keysight Technologies	Test and measurement equipment.
31	Rohde & Schwarz	Wireless communication and RF test equipment.
32	Fluke Corporation	Industrial test tools and thermal imaging.
33	Tektronix	Oscilloscopes and signal analyzers.
34	Yokogawa Electric	Industrial automation and test instruments.
35	Zebra Technologies	Barcode scanners and RFID solutions.

36	Thales Group	Defense electronics and avionics.
37	Lockheed Martin	Military technology and radar systems.
38	Raytheon Technologies	Defense systems and avionics.
39	Bharat Electronics Limited (BEL)	Indian defense electronics and radar systems.
40	L&T Electrical & Automation	Industrial automation and electrical equipment.
41	Havells India	Switchgear and lighting solutions.
42	V-Guard	Voltage stabilizers and home appliances.
43	Volta	HVAC systems and cooling solutions.
44	BHEL	Power plant equipment and electrical systems.
45	Alstom	Rail transport systems and electrification.
46	Adani Power	Thermal and renewable energy generation.
47	Tata Power	Electricity generation and grid systems.
48	Philips	Healthcare electronics and medical imaging.
49	Canon	Imaging and optical products.
50	Xilinx (AMD)	FPGAs and adaptive computing.

Top 50 Service-Based Companies

SI No	Company Name	Description
1	Tata Consultancy Services (TCS)	Embedded systems and industrial automation.
2	Infosys	Electronics R&D and industrial IoT.
3	Wipro	VLSI design and embedded software.
4	HCL Technologies	Semiconductor design and AI solutions.
5	Capgemini	Automation and smart tech solutions.
6	L&T Technology Services	Factory automation and embedded technology.
7	Accenture	Hardware-software integration and IoT.
8	Cognizant	Embedded systems and cloud technologies.
9	Tech Mahindra	Telecommunications and smart city solutions.
10	IBM	AI hardware and IoT development.
11	Quest Global	Aerospace, defense, and electronics design services.
12	Honeywell Technology Solutions	R&D services and industrial software.
13	KPIT Technologies	Automotive electronics and embedded systems.
14	Mindtree	Digital electronics and AI integration.
15	Sasken Technologies	VLSI design and semiconductor services.
16	Cyient	Design and manufacturing support and industrial IoT.
17	eInfochips (Arrow Electronics)	ASIC design and embedded development.
18	Virtusa	IoT platforms and cloud computing.
19	Altran (Capgemini Engineering)	VLSI and embedded design.
20	Hexaware Technologies	AI solutions and embedded software.
21	Persistent Systems	IoT development and cloud-based electronics.
22	Zensar Technologies	Industrial tech solutions and AI.
23	Birlasoft	Embedded software and industrial AI.

24	SLK Software	Automation and embedded development.
25	Nagarro	IoT systems and AI.
26	Sonata Software	Digital electronics and AI systems.
27	Happiest Minds	Smart electronics and IoT.
28	Mphasis	Embedded AI and cloud-integrated electronics.
29	Blue Star Infotech	Control systems and HVAC tech.
30	Ramco Systems	IoT and smart electronics.
31	RBEI (Robert Bosch Engineering)	Automotive tech and embedded software.
32	Valeo India	Automotive electronics and sensors.
33	Continental AG	Vehicle electronics and AI.
34	Expleo	Embedded systems and aerospace R&D.
35	DXC Technology	IoT and AI hardware.
36	UST Global	Industrial automation and embedded software.
37	iGate (Capgemini)	Semiconductor design and AI.
38	Siemens Technology Services	R&D for industrial electronics.
39	Cimpress	Smart factory tech and AI systems.
40	Intellect Design Arena	IoT platforms.
41	Proadapt Solutions	Telecom IoT and embedded AI.
42	Aricent	Semiconductor design services.
43	Torry Harris	Embedded systems and industrial AI.
44	Infotech Enterprises	Product design and AI.
45	ALTERN Calsoft Labs	Digital engineering solutions.
46	Softnautics	Embedded software and VLSI design.
47	Insemi Technology	ASIC design services.
48	Embitel Technologies	IoT and automotive solutions.
49	Sasken Communication	Wireless technology.
50	VVDN Technologies	Product engineering and IoT.
